

# OLMC Return-to-School Survey Responses

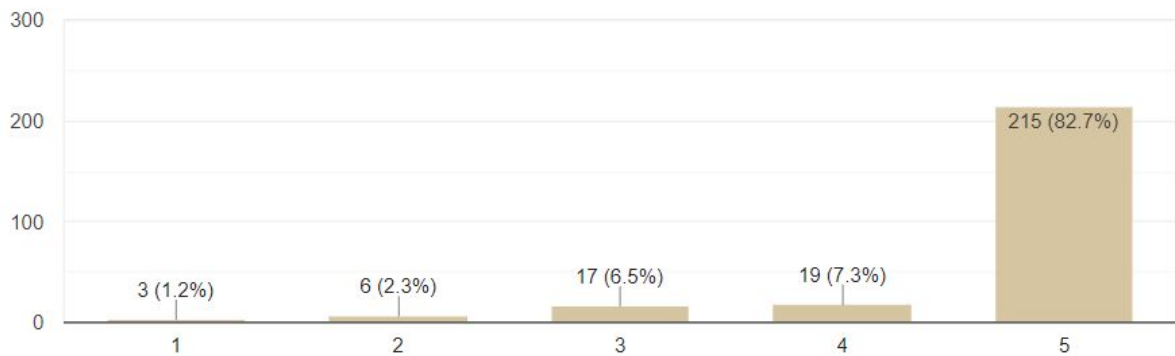

For the responses shown below,  
1= Strongly Oppose 5= Strongly Support

Though students often learn better in groups and pairs, seating in staggered rows and columns creates better physical distancing. How do you feel about only rows and columns to start the year?  
259 responses

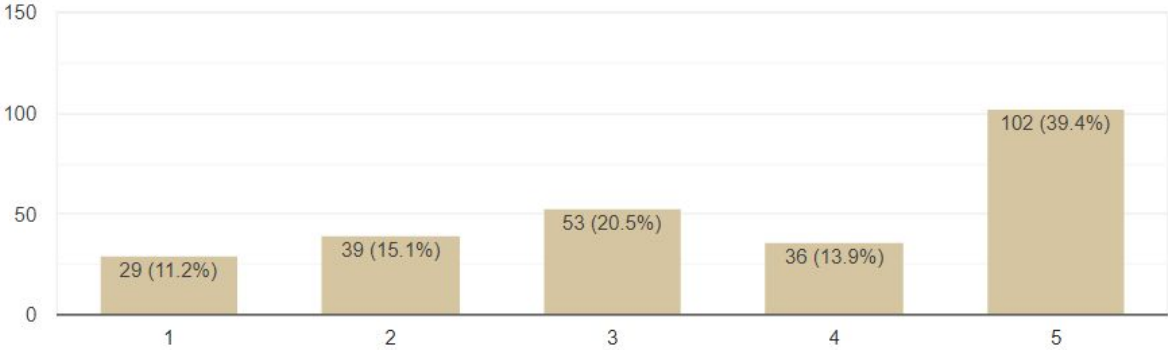

Hand washing has been shown to be the most effective way to remove germs, though frequent handwashing can take some time. How do you feel about students washing their hands every time before they enter the classroom?

260 responses

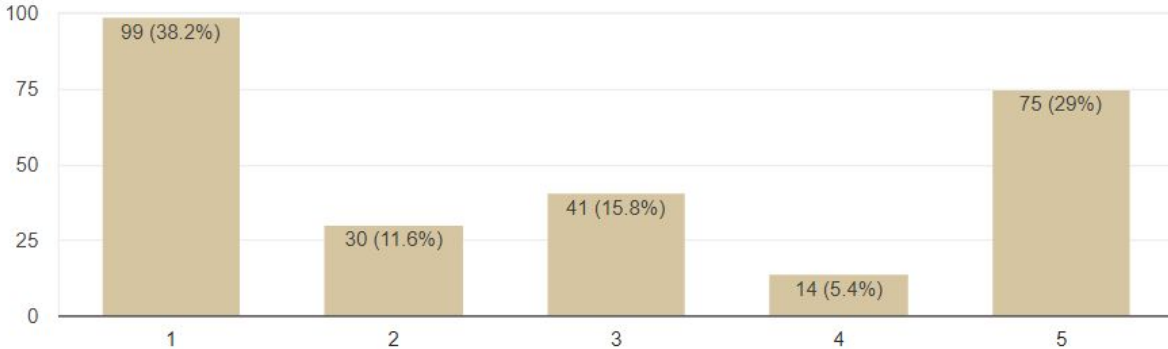

While our students benefit socially from mixing with other classes at recess and with buddies, isolating them in a cohort (i.e. 4A stays with only 4A all day) minimizes their exposure to more students. How do you feel about isolating class cohorts?

259 responses

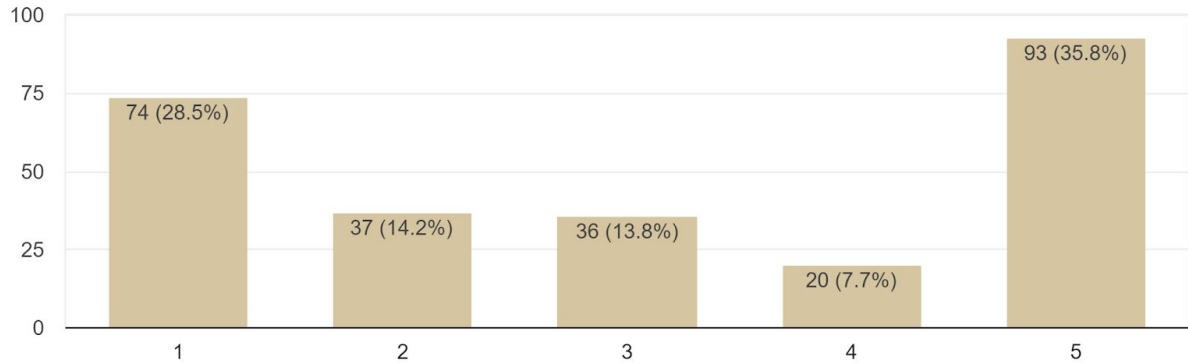

Distance learning is not an ideal learning environment, but if half of each class alternated 1 day of distance learning with 1 day at school, class size could be reduced by 50% to allow for greater physical distancing. How do you feel about a blended learning system with 2 days at school and 3 days of distance learning from home each week?

259 responses

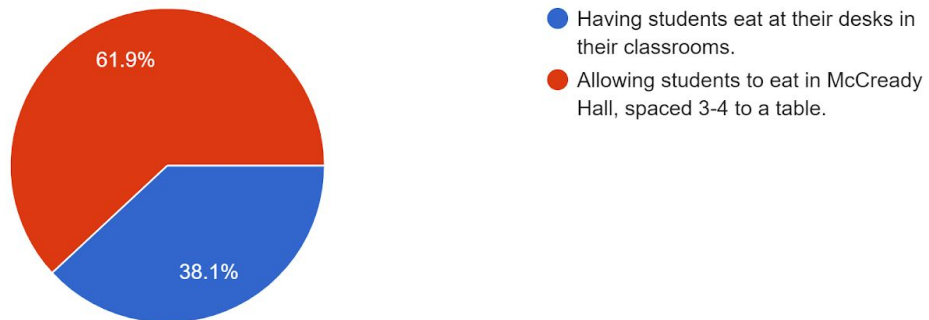

While properly wearing masks reduces the spread of germs, it also can create social and educational obstacles. How do you feel about students and staff wearing masks all day?

260 responses

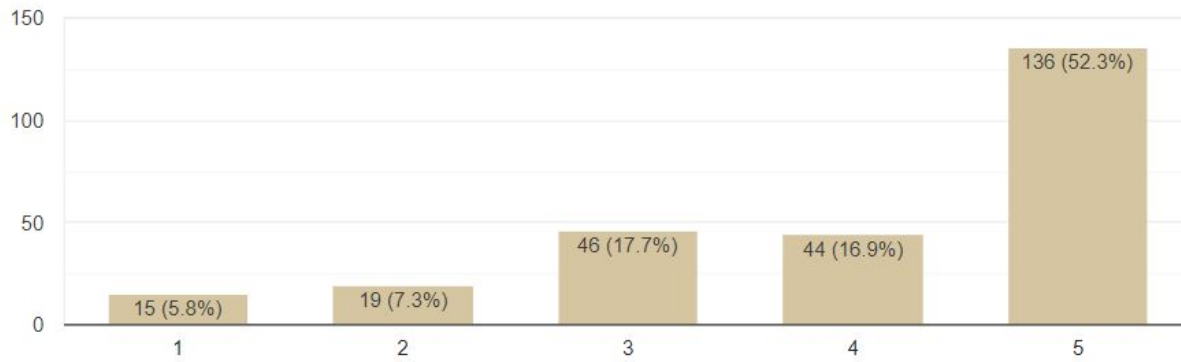

We recognize the importance of student interactions during the lunch period, while wanting them to eat in a healthy environment. Which lunch option would you prefer?

260 responses

Parents and volunteers are an integral part of the daily life at OLMC, but their presence on campus introduces more germs. How do you feel about a "Kiss-and-Go" drop-off where only the students enter campus to start the year?

260 responses

One of the symptoms of COVID is a fever, though not all carriers have one and it would extend the drop-off procedures. How do you feel about mandatory temperature checks each morning?
